## Languages

English  
Hindi

## Programming Languages and Tools

♥ REACT  
NodeJS, Express  
MongoDB  
C, C++,  
JavaScript, CSS, HTML,  
Python  
MySQL  
Github, Firebase  
Bootstrap

## Upcoming:

Currently exploring and  
working on:  
Redux,  
Elasticsearch  
ANTD, Material-UI

## Education

2018–2022	<b>B.Tech</b> in Computer Science and Engineering	Dr. APJ Abdul Kalam Technical University
2018	<b>12th :-</b> Lancer's Convent (90.0)	CBSE
2016	<b>10th :-</b> Lancer's Convent (9.0 CGPA)	CBSE

## Experience

Jun-July 2020 **Web Developer @MyKaam: Solving Jobs for Blue Collor**  
Some of my roles were to do optimization of website to increase performance and efficiency. Used automation tools like Gulp, Webpack. Server Side rendering of React for better SEO.

## Projects

Dec-2020 **WhatsAppClone**  
In progress , developing a chat application (WhatsApp Clone) using MERN stack. Authenticated using Firebase and use of Pusher for the near real-time experience with sending and receiving messages.

Nov-2020 **Gitsearch**  
A dynamic search app using the power of Elasticsearch. Build with appbase.io's Reactive Search. Reactive Search is a UI library which is integrated with Elasticsearch components.

Oct-2020 **DeveloperIn**  
Social Media for developers with some fundamental features like adding Experience, Education to profile, creating post, liking them, commenting Post, viewing other developers profile.

May-2020 **E-commerce Platform**  
An e-commerce Application (Clothes Store) using MERN stack development. Along with authentication using JWT it uses Braintree payment gateway. Worked in Stripe Payment method also.

May-2020 **YourTube**  
Video Streaming Web App developed using REACT and YouTube Data API v3 for fetching data (videos, channel information) using Axios (JavaScript Library). Improvement in progress by providing comments and other statistics as well in App.

May-2020 **RESTfull API**  
Express framework used to request the resources from Database (MongoDB) using POSTMAN. Authentication of user through passport JWT and OAUTH authentication. Concepts of CORS used to access resource from different origin.

## MINI PROJECTS

- **PICS SEARCH:** Made a Search Image application using REACT. Unsplash API
- **TIC TAC TOE:** Tic Tac Toe game using React Hooks
- **MY TASKS:** TODO List
- **CLIMATE APP:** Tells weather according to location of client.

## Achievements

### Merit Rank

Achieved 1st position in 1st year examinations

Inderprastha Engineering College

### Coding Competition

Secured 1st rank in coding competition in college conducted by Computer Society of India (CSI)

Inderprastha Engineering College

### NPTEL National Topper

Scored in Top 5 percent (Silver Category) in Programming in C++ Exam

National Program on Technology Enhanced Learning

## Interests

### Full-stack Development

Develop Web applications and much more..

### Enthusiast:

Enthusiast to know about New Technologies

### Training:

Not got opportunity till date, but would love to give training sessions

## Skills

### Good Management skills

Excellent Management Skills which require in company

### Programming Ability

Good programming skills in REACT, Express, NodeJS

### Quick Learning Capability

Quick learning all the fundamental of the Software Technology, Leads to matching quickly with the company requirements

### Good in Communication

### Versatility and Need for Perfection

## Hobbies

### Learn about new Development Technologies

Learning about the latest technology which helpful in company and Improve my programming Skills as well.

### Fitness

Going for gym or any activity, keeping myself physically and mentally fit.

### Reading Books

Love reading books, feed myself with more knowledge
